EXPERIENTIAL LEARNING
VIRTUAL INTERNSHIPS
REAL WORLD COMPETENCIES
EMPLOYMENT READY

OUR MISSION is to bridge the "skills gap" by developing, measuring, and improving career performance. As our company name and logo signifies, we navigate and guide the future workforce toward professional excellence, by developing competencies through our Professional Edge Platform© designed to enhance workforce readiness through numerous cutting edge business models.

WE DEVELOP PROFESSIONALS

Our business model and programs, like the Entrepreneur Institute, are designed to test, mobilize, and empower our interns to unearth hidden talents, bring a better sense of self awareness, unleash confidence and leadership and improve the world of work. We need a workforce that is ready for the challenges of tomorrow by improving capabilities today. Knowing how to apply theory to real-world situations develops much needed leadership.

MR. CHRIS KISER
DIRECTOR OF COLLEGE & CAREER READINESS
PALESTINE ISD

KEYNOTE

Mr. Chris Kiser, Director of College & Career Readiness from Palestine Independent School District. Mr. Kiser is currently in his twenty-third year in education, 10 as a teacher/coach, and 13 as an administrator. He shares his philosophy that schools share a huge responsibility in maintaining the values of a community, while at the same time ensuring its students are gaining the knowledge and skills necessary for "Life in the Real World." At PISD, they have made College and Career Readiness a priority across the district. This relatively small, rural school district expects to enroll over 215 students in college classes and have set a goal of 205 students earning industry recognized certifications/licenses during the 2017-2018 school year. They are proud to say that PISD students are College and Career Ready.

Shannon Mantrom is Executive Director of Leap to Success, the signature program of Launch Pad Job Club in Austin, TX. The program offers pro bono, professional projects assistance to Austin and Central Texas nonprofit organizations. Since it's founding in 2012, Leap to Success has delivered over 115 projects to more than 100 nonprofits totaling over \$500K in services. The program won the "2013 Nonprofit Advocate" award from PeopleFund and in 2017 won the "Nonprofit of the Year" award by the Austin LGBT Chamber of Commerce.

Shannon's background is 20 years in sales and event coordination (with time off to raise to amazing daughters!) and it is Shannon and her Leap to Success team who coordinate the annual Launch Pad Job Club Employment Expo, the club's annual fundraiser and service to its membership held each September.

SHANNON MANTROM

Sure, we will have cool speakers, make sure you learn some new things, BUT we also want you to preview vendors, have some time to network and learn more about conference events and sessions	1 & 1/2 Hours  	FACT Education & Texas Public Safety Teachers Association	Davidson Ballroom

		Christine Holecek ACTE Region IV Vice President Education Specialist II			Opening Session
		<u>Leap to Success Texas Executive Director - Shannon Brooke Mantrom</u>			Opening Session
		College & Career Readiness Director - Palestine ISD - Mr. Chris Kiser			Opening Session
		Texas Education Agency Texas CTE			Opening Session
	8:00 PM	Join us on the ROOF! Networking Meet & Greet	3 Hours 	FACT Education	The Rooftop Bar
TIME	Monday 7/9/2018		SESSION	DURATION	ROOM
7:00 AM	REGISTRATION & PICKUP - LOBBY				Lobby
7:00 AM	GRAB & GO BREAKFAST BEGINS!				Davidson Annex
7:30 AM	Building Trades Educators HOT Breakfast Hosted by International Code Council - Join FACT Ed CAE Director for Building Trades , Texas State Technical College Building Trades Instructors along with a representative from the Texas Education Agency for an informal networking breakfast.		FACT Education Building Trades; Texas State Technical College Construction Management, International Code Council, Texas Education Agency	1 Hr	Samuel May Williams
8:00 AM	The NEW Cosmetology Licensure Exam! Lynn Thomas PSI & TDLR- Join Lynn Thomas with PSI Exams and TDLR Staff for a discussion about PSI Exam Statistics and the new written and practical exam details		PSI Exams - Lynn Thomas, TDLR 		Davidson Ballroom South
8:00 AM	Work Based Learning - Career Prep & Practicum Training - - The most important key to successful Career Prep programs is the existence of written program guidelines. All teachers assigned to a Career Prep or Practicum course must have received training in program implementation.		Monelle Rougeau Region IV ESC 	4 Hrs 	Stephen F. Austin
9:00 AM	Cisco Packet Tracer - Train the Trainer Session - Packet Tracer supplements physical equipment in the classroom by allowing students to create a network with an almost unlimited number of devices, encouraging practice, discovery, and troubleshooting. The simulation-based learning environment helps students develop 21st century skills such as decision-making, creative and critical thinking.		John Washington - Texas State Technical College Information Technology/STEM/Robotics	2 Hrs 	Cynthia Woods Mitchell 

	9:00 AM	VEX Robotics in the Classroom Simply put, there is a growing societal need to enhance Science, Technology, Engineering, and Mathematics (STEM) learning in classrooms. This is especially prevalent at the elementary and middle school levels, where there is a call for integrated learning programs that allow teachers to engage students in creative and meaningful ways, while also meeting today's rigorous academic standards.	Eddy Parker - Comanche ISD 	2 Hrs 	Sam Houston R
	10:00 AM	International Building Code Certification - Train the Trainer Session - HSTTP offers schools a framework to help students understand how codes and regulations are used in the design and construction of residential, commercial, federal and military facilities. Schools participating in the HSTTP provide students with up-to-date code knowledge and technical code training that goes hand in hand with practical training leading to a skilled workforce. From any building trade, students may transition into active participants in code administration, including inspection in the fields of building, electrical, plumbing, mechanical, solar, public works and property maintenance. Because the majority of workers in the construction trades learn on the job, this program incorporates a hands-on component to allow students the opportunity to directly apply what they learn in the code book to an actual construction project. This educational combination allows students to enter the construction trades with an advantage that will expand their career growth opportunities anywhere in the country.	Mr. Jim Ellwood, Liaison to ICC High School Technical Program (HSTTP), Mr. Michael Carillo - Texas State Technical College Construction Management, 	2 Hrs. 	Samuel May Williams
	10:00 AM	ACTE - Association for Career and Technical Education® is the largest national education association dedicated to the advancement of education that prepares youth and adults for careers. It's our mission to provide educational leadership in developing a competitive workforce. Learn more about this organization, their efforts in advocacy and how to become involved in the advancement of career and technical education.	Christine Holecek ACTE Region IV Vice President Education Specialist II 	1 Hr 	Sam Houston L
	1:00 PM	They Know Better! - Or Do They? Getting Student Behavior Back Under Control - Every year it is more challenging to keep student on-task. As teachers, we want to do our best to help our students to succeed. However, we often lack the tools to accomplish this daunting task! In this jam-packed session, you will learn time-tested, research based strategies and techniques designed to: • Decrease teacher and student frustration • Improve student focus • Systematically teach appropriate, on-task behavior • Drastically reduce problem behavior • Increase instruction time	Time to Teach - Don Hollis 	2 Hrs 	Stephen F. Austin

	1:00 PM	Hands-On, Minds-On STEM: Better Learning through Engineering Design - The Engineer Your World classroom is a place where students engage in authentic engineering and computing practices in a problem-solving, inquiry, project-based environment. Schools may offer one or two, year-long courses. Students may apply to earn university credit from the UT School of Engineering. Participants in this session will learn about the curriculum and teacher support, engage in discussion with a current Engineer Your World teacher, and explore possible funding opportunities.	University of Texas Austin - Engineer Your World 	1 Hour	Sam Houston
	1:00 PM	GiGi Waxing-Train the Trainer Session you won't want to miss this demonstration train the trainer session covering the new state board waxing procedure and the benefits of working with Gigi Wax Products	Gigi Waxing 	1.5 Hrs	Davidson South Ballroom
	1:00 PM	Framing the Roofing Square - Join Michael Carillo from Texas State Technical College for this hands on session to clear up your questions about framing the roofing square	Michael Carillo - Texas State Technical College 	2 Hrs 	Samuel May Williams
	2:00 PM	Strategies for ELL Learners in the CTE Classroom - Explore research based strategies to help English language learners understand content concepts while supporting academic language development for all students. Participate in activities that model opportunities to listen, speak, read, and write content area concepts.	Monelle Rougeau Region IV ESC 	3 Hrs 	Sam Houston R
	2:00 PM	Instructor Contest -SkillsUSA Internetworking - IT & STEM Educator Showdown! Think you have what it takes to step into your students shows and compete in the Internetworking contest? Join the SkillsUSA Texas Internetworking Contest Chairs in learning as a contestant in your own mock contest. Educators - bring a fully charged, wifi enabled laptop that you possess download permission for.	John Washington - Texas State Technical College Information Technology; McAfee LLC 	4 Hrs 	Cynthia Woods Mitchell
	2:30 PM	Avlon - Texture Release System - Texture Release™ System is heat activated with amino acids and conditioning agents which go deep into the hair fibers to enable styling versatility. This allows the client to have optional textural change with increased combing manageability. This system was formulated for excessively curly hair that needs moisture & conditioners with special attention to the scalp.	Avlon 	2 Hrs 	Davidson Ballroom - South

	3:00 PM	Service Learning - The Mission of Leap to Success is to promote the professional talents of the members via short-term, pro bono project work for nonprofit organizations, thus allowing prospective employers to see proactive professionals who are keeping their skills sharp while volunteering for worthy organizations — a true win-win for all involved. Sounds like a win-win for CTE Students of all grade levels.	Leap to Success Texas 	1 Hour	Stephen F. Austin
	4:00 PM	National Technical Honor Society - Advisor FAQ's - Join a National Technical Honor Society Advisor to learn about the fantastic opportunities offered for student members. Receive information about starting your own chapter, setting guidelines for membership, etc.	NTHS Advisor 	1 Hour	Stephen F. Austin
	4:00 PM	Fundamentals by Pivot Point - The Learning System that Thinks Like a Student. Salon Fundamentals' student-friendly study strategies, combined with groundbreaking learning tools, are designed to help students direct their thinking, improve memory, retain what they learn and manage information. This means students are inspired because we help them tap into their natural intelligence and gain confidence.	Pivot Point 	2 Hrs.	Davidson Ballroom South
	TIME	Tuesday 7/10/2018	SESSION	DURATION	ROOM
	7:00 AM	GRAB & GO BREAKFAST BEGINS!			Davidson Annex
	8:00 AM	Enhancing the Learning Experience thru customizing a course with digital simulations and Milady - Today's educators seek to provide students with learning experiences that develop career readiness. Not surprisingly, the transformation of the classroom learning process is being heavily driven by technology. In this hands-on session, you'll learn the latest strategies being used to transform student engagement through MindTap with Milady & Technology	David Valerio - Cengage 	1 Hr	Davidson Ballroom South
	8:00 AM	Hands-On, Minds-On STEM: Engineering, Computational Thinking, and 21st Century Skills - Participants in this session will: (1) discover how a project-based engineering design course enables the learning and application of skills as diverse as computational thinking, systems thinking, analytical reasoning, communication and collaboration; (2) understand how students in such an engineering design course can earn university engineering credit as early as ninth grade; and (3) explore how best practices in teacher professional development and support can empower educators from diverse backgrounds to teach engineering.	The University of Texas Austin - Engineer Your World 	2 Hrs	Sam Houston L 
	9:00 AM	Love & Logic - Join Kelly Smith from Mesquite ISD to explore the practices and principles of Love & Logic. If you are struggling with classroom management and developing those all important connections with students, you will not want to miss this session! Atruggling at HOME with your own children? The principles of Love & Logic also apply at home!	Kelly Smith - Behavior Specialist - Mesquite ISD 	3 Hrs 	Stephen F. Austin 

	9:00 AM	<p>From Student to Successful Spa Entrepreneur; How to teach students the Business of being in the Skin Business</p> 	<p>Alissa de Jongh, N.D. Board Certified Naturopathic Doctor CIDESCO Diplomat Consumer Arts & Sciences Center of Excellence Professor of Facial Esthetics Houston Community College</p>	45 Minutes	Davidson Ballroom South	
	9:00 AM	<p>Mindful Teaching - WHAT IS MINDFUL TEACHING? Paying attention to the details of teaching and empowering educators to inspire the next generation of professionals. Learn how to increase productivity, promote success and encourage professionalism. These are the skills that employers are demanding. A perfect session for ANY Educator!</p>	<p>Mindful Teaching</p> 	3 Hrs.	Samuel May Williams	
	9:45 AM	<p>Estheticians using the Power of Touch to enhance treatments; adding relaxing acupressure hand massage to facial services</p> 	<p>Alissa de Jongh, N.D. Board Certified Naturopathic Doctor CIDESCO Diplomat Consumer Arts & Sciences Center of Excellence Professor of Facial Esthetics Houston Community College</p>	45 Mins	Davidson Ballroom South	
	10:00 AM	<p>Pipefitting with PHCC-TX - Associated Plumbing, Heating, Cooling Contractors of Texas - Join Sam Dowdy for all the info on pipefitting</p>	<p>Sam Dowdy - PHCC-TX</p> 	2 Hrs	Sam Houston	
	11:30 AM	<p>Burmax Build a Kit - Lunch & Learn- grab your lunch furnished by FACT Education and learn while you eat! learn how to use a BRAND NEW tool to aid you in building your student kits, explore money saving tricks, and discuss order strategies and procedures with the Burmax Company</p>	<p>Burmax</p> 	1 1/2 Hours	Davidson Ballroom South	
	1:00 PM	<p>Promoting Entrepreneurship in a 9-5 World - Educators can influence business ownership in their classrooms. Many students fear the risks of entrepreneurship because it's outside of the norm, our current school system is geared towards pushing students to a 9-5 mentality. But what about the students that don't fit the mold? Entrepreneurship is thriving now, but those that are starting their own product lines and service companies aren't equipped with the right knowledge to stay in the game. Let's discuss how educators can keep our future entrepreneurs in the game longer by incorporating it in their classrooms.</p>	<p>Mair Fragrance</p> 	1 Hr	Stephen F. Austin	

	1:00 PM	The Pipeline Plumber Program - This session will provide information about an innovative plumber pipeline program that is helping students in the Austin area receive hand-on, on the job training beginning in their junior year of high school. Sam Dowdy hopes that other school districts will learn from this model and begin their own program locally.	Sam Dowdy - PHCC-TX - S and D Plumbing 	2 Hrs	Sam Houston L 
	1:00 PM	Brazilian Blowout Certification -Train the Trainer Session There is only ONE Brazilian Blowout! Learn why it's the best and how to train your students in preparation for making the big bucks in the salon.	Brazilian Blowout 	2 Hrs	Davidson Ballroom South 
	2:00 PM	Smart Device Repair - Train the Trainer Session - add proven, cell phone repair certifications to your curriculum. We provide teacher-driven, student focused solutions to help blend digital learning into your classrooms. Bring your own phone or tablet in need of repair to this interactive hands on session.	2HUTech; McAfee LLC 	4 Hours	Cynthia Woods Mitchell
	2:00 PM	Biometrics in Education - GuestVision delivers tools for every part of an education institution, from K-12, to community colleges and universities, to vocational schools, to corporate training, simply everywhere.		1 Hour	Sam Houston R
	2:00 PM	Two-Faced Teacher? - Participants in this session will learn how to easily teach students the art of Special Fx Makeup made easy with easy to find, inexpensive tools and ingredients. Take your lessons to the next level! Join Shaenda Rodgers for this fun, hands on session! - Limited Space Available	Shaunda Rodgers . Mesquite ISD 	3 Hrs	Davidson Annex 
	2:00 PM	Insurance Industry Training - Train the Trainer Session - add instruction to your business training program regarding careers in the insurance industry. Take part in this session to gain insight into the growth of the insurance industry, relaying career opportunities to your students AND leave with curriculum that's ready to implement in your program	McGill Insurance 	2 Hours	Stephen F. Austin
	3:00 PM	Flexible Learning Environments - This session will go over the latest pedagogies of flexible learning environments. Attendees will explore how to set up their own classroom, develop a classroom culture, and best ways to integrate technology	Peterson 	2 Hours	Sam Houston R

	8:00 AM	NCCER Instructor Craft Training NCCER has developed the Instructor Certification Training Program (ICTP) as part of the accreditation process. This program ensures the uniform and consistent delivery of training. Through this program, NCCER certifies the Master Trainer, who in turn certifies the local Craft Instructor. This network of certified instructors assures that NCCER training programs meet the standards of instruction set by the industry. There are additional restricted and specialty certifications available. For a complete list of all recognized categories, please see the NCCER Accreditation Guidelines.	Jeff Eichmann 	8 Hrs 	Colonel Moody
	9:00 AM	FIRST IN TEXAS! Exposure to robotics enforces science and math concepts for students of ALL grades. This session will provide teachers with an overview of the wide range of opportunities available with FIRST in TEXAS, how to integrate robotics into their classrooms, and provide educators information about indepth training materials and other resources needed to provide great education.	FIRST in TEXAS 	2 Hrs. 	
	9:00 AM	FEMA - Federal Emergency Management for Instructors - This session will provide you with the information you need to implement this training on your campus for your students or staff.	David Lanman - Wylie ISD 	1 Hr 	Sam Houston R

	10:00 AM	CTE Motivates Urban Students to Stay in Schools - Examine how career guidance is an important element in keeping urban students in school. Recognize challenges and rewards of working in an urban environment. Articulate why it is critical to build authentic caring relationships with students.	Sandra Newell - UrbanLifeline 	1 Hr	Stephen F. Austin
	11:00 AM	The NEW Boutonniere - hands on session - learn how to make the NEW Boutonniere with Certified Floral Designer Clay Honeycutt	Clay Honeycutt - Certified Floral Designer 	1 Hr Join Clay Honeycutt, Certified Floral Designer, at 13CTE 18" for hands on training to make the NEW Boutonniere!	

	1:00 PM	Developing Competencies through an Experiential Learning Model of Virtual Internships - This presentation will discuss the importance of redefining how competencies are developed in order to answer the many questions employers ask regarding the skills gap in potential employees. The skills gap dilemma has been a growing problem across our nation for at least a decade and it grows worse as we struggle to find a method of developing competencies that provide the foundation for employers to then develop new employees in the needed direction to grow revenue.	Pole Star Experiential Learning	1 Hr	Samuel May Williams
					
	1:00 PM	Ethical Hacking in Your School! - Train the Trainer Session Hacking is a method of problem solving that combines resourcefulness, logic, creativity, and study. Join this practical session full of information regarding security awareness that has to be the continuing practice of a skill and not just the continuous reminder of a threat.	2HUTech, McAfee LLC	4 Hrs	Cynthia Woods Mitchell
					
	1:00 PM	Contouring & Highlighting - The art of Contouring and Highlighting is one of the hottest trends in the make-up world today. Learn how to slim your face, bring out your cheek bones, and make your nose look smaller or thinner. All the secrets of the professional make-up artist! This is a must for all.	Nylynn Cosmetics		Davidson Ballroom South
					
	1:00 PM	LOW ROPES! One of the most unique benefits of a Low Ropes Course is its ability to engage participants by removing them from the challenges they ordinarily face. When confined to the same environment each day, whether it is a classroom or a workplace, many people will fall into a routine mindset that allows very little opportunity for growth or change. Low Ropes Courses present participants with challenges that appear to be wildly different from the tasks they face on a day to day basis. The apparent differences between these challenges and the participants' daily life increase their interest. At the same time, the challenges encourage them to attempt new problem solving methods to achieve success. Join in to learn how to implement this training in your classroom or on your campus for a very low cost! Hands on session - Dress comfortable!	David Lanman - Wylie ISD, Tommy Spence - Seminole ISD, Eddy Parker - Comanche ISD	2 Hrs.	Sam Houston
					

	1:00 PM	TWC Grants for FIRST Robotics - Robotics competitions bring together the excitement of sports and science and technology. The FIRST in Texas Robotics Competitions are mentor-based programs that encourage leadership skills in the science, engineering and technology fields of study while encouraging self-confidence and communications skills. TWC has supported FIRST in Texas high school programs since they were founded in 2010 through sponsorship grants for high school teams and competitions across the state.	FIRST in TEXAS 	1.5 Hrs.	Stephen F. Austin 
	2:30 PM	Artistic Nail Design - Putty Shaping Liquid effortlessly glides Putty into place with zero monomer, odor or other unsafe chemicals. 4oz Shaping Liquid is the equivalent of a 16oz monomer. 8oz Shaping Liquid is the equivalent of a 32oz monomer. To be used sparingly. Shaping Liquid does not activate product curing. You will be blown away during this innovative hands on training session presented by Artistic Nails.	Artistic Nail Design 	2 Hrs.	
	2:30 PM	GIRLS in STEM - The world's greatest challenges need new STEM ideas and insights. Yet half of the world's potential ideamakers—women and girls—are discouraged from developing vital STEM ideas. Join in on this fun and interactive hands-on lesson to inspire incorporation of STEM in ALL career pathways for girls of all ages.	Alissa de Jongh, N.D. Board Certified Naturopathic Doctor CIDESCO Diplomat Consumer Arts & Sciences Center of Excellence Professor of Facial Esthetics Houston Community College	1.5 Hrs.
